

INFORMATION ON THE FUNCTIONING OF THE SESSIONS

How to join the session:

When entering the session, you must "RENOMEAR" and indicate their STUDENT Number + FIRST AND LAST NAME. You should also keep your CAMERA ON.

Participation in the sessions

No student can participate in more than one parallel session in each timeframe. Thus, each student must participate only in one session scheduled from 09h15 to 10h30 and must participate in another session from 11:00 to 12:30. Regarding the plenary sessions, students must participate in the sessions they want to and, since they are not simultaneous, they can participate in all of them so that they can capitalise on all the credits that can be allocated to this event.

Creditation in the EEGenerating Skills Development Programme (EEGenerating Skills)

Students can be credited in four activities convened within the frame of the EEG Research Day. In this regard, students must participate during the full time of the session. Each activity is credited with 0.125 ECTS and the entire event with 0.5 ECTS. The 4 activities will be counted as follows: 1 parallel session at 09:15-10:30 + 1 parallel session at 11:00-12:30 + 1 plenary session at 14:15 - 16:15 + 1 plenary session at 16:30 - 17:30.
